

# ASSIGNMENT

Question: Create html file 4 input boxes (name-qualification-age-email-submit button) (above information should be displayed by web browser)

Solution:

```
<!DOCTYPE html>

<html>

<head>

<title>Assignment 1</title>

</head>

<body>

  <h1>Assignment 1</h1>

  <form>

    <div class="container">

      <div class="row">

        <div class="col-10">

          <label for="fname">Name:</label>

        </div>

        <div class="col-90">

          <input type="text" id="fname" name="firstname" placeholder="Enter your name">

        </div>

      <div class="container">

        <div class="row">

          <div class="col-10">

            <label for="Qualify">Qualification:</label>

          </div>

          <div class="col-90">
```

```
        <input type="text" id="Qualify" name="Qualification" placeholder="Enter your
Qualification">

    </div>

<div class="container">

    <div class="row">

        <div class="col-10">

            <label for="fname">Age:</label>

        </div>

        <div class="col-90">

            <input type="text" id="age" name="Age" placeholder="Enter your Age">

        </div>

    <div class="row">

        <div class="col-10">

            <label for="email">Email:</label>

        </div>

        <div class="col-90">

            <input type="email" id="email" name="email" placeholder="it should contain @.">

        </div>

    </form>

</body>

</html>
```
